## Who are we?

Dynamsoft is a Canadian company specializing in computer vision developer tools. We are focused on helping developers integrate robust barcode scanning and document capture into web, desktop and mobile applications.

Fast, Accurate Barcode Scanning

Whether it's 1D, 2D, batch, blurred, distorted, distant or moving, we can scan it. Fast.

Secure Document Scanning

It only takes a few lines of JavaScript to transform workflows with secure web document scanning.

Data Capture

Localize and capture data from labels, driving licenses, passports and vehicles using OCR.

Why Dynamsoft?

No Obligation Pre-Sales Support
We'll help you via live chat, phone or email to get your POC done quickly.

Fast Integration
With just a few lines of code you can embed scanning and data extraction into your applications.

Customization
We provide a vast range of customization options to fit your specific use case.

Flexible Licensing
Every scenario is different. We'll work with you to find licensing options that make sense for your business.

Enterprise Grade Security
Your data stays secure, encrypted and within your network. ISO 27001-certified.

18 Years in Computer Vision
We've been accelerating workflows for retail, health, logistics, field service and many other industries for over 18 years.
